About Me

Solution-focused and detail-oriented aspiring front-end web developer. Capable of writing production-ready code using React, Redux, and CSS on the Front-end. Passionate about coding and strongly interested in working in a fast-paced environment. Keen to collaborate with peers and develop user-centric products.

Professional Experience

System Engineer, TCS Ltd.

Nov 2020 – Present

*Working As **Frontend Web Developer***

Key responsibilities :

- Managing e-commerce sites with over 8000 products.
- Maintaining the Front-end related development of JIRA stories created by Business. Redesigned the e-store UI as per the business request.
- Analyzed website performance metrics and identified areas for improvement, resulting in a 30% increase in website speed and a 40% increase in customer engagement.
- Successfully onboarded a new team member, providing comprehensive knowledge transfer on project specifics and best practices.
